

## James Cockledge Location Sound Recordist

T: (0) 7956 817 946

E: james@therecordist.co.uk

[www.therecordist.co.uk](http://www.therecordist.co.uk)

### About Me

With over 20 years of experience in location sound recording I bring a wealth of expertise to every shoot I undertake.

Throughout my career I've had the privilege of working on a diverse range of prestige broadcast and commercial projects including Documentaries, Factual, Entertainment, Reality and Competition style shows. Along with an array of commercials, branded content and high-end corporate projects

I've been lucky that my work had taken me all over the world which often means working in challenging environments for audio, whether it be in the sub-zero temperatures of the arctic, the intense heat of the desert or the hustle of a city centre.

I always approach a job with a positive, can-do attitude. On set I adopt a proactive stance to facilitate the smooth running of a shoot, swiftly adapting to any changes as they arise and pride myself on providing the best possible audio.

I have the skills and experience to seamlessly blend into a team whether it be a small shooting unit or larger full crew.

Every job is prepped with the correct equipment taking into consideration the cameras being used, the location or environment and the possible sensitive nature of a production.

I can provide technical expertise for single camera shoots or multi camera / multi radio mic productions and I can organise and manage additional sound crew and kit if required.

- 20 Years' Experience
- London/Surrey Based
- Full Zaxcom Sound Kit
- Kit Vehicle
- I-Visa
- Carnet

### Kit Details

My main rig is the powerful Zaxcom audio system. Which due to its integrated design I can provide a feature packed system but in a compact set up, making me agile on location while ensuring I can deliver crisp audio.

A standout feature is the seamless control of my radio mics directly from the mixer, streamlining the filming process for maximum productivity. In addition, the transmitter's built in recording function adds another layer of convenience and flexibility.

Communication on set is always key so managing programme sound, talent IFB feeds and production radios is a priority.

### Kit List:

- Zaxcom Nova 2 Mixer/Recorder
- Sound Devices Mixer/Recorder
- Zaxcom Radio Mic System
- Wisycom Radio Mic System
- DPA Lavalier Microphones
